

Group-3 Testing Report

Security Issues

1. No reCaptcha or OTP on all pages.
2. Form Autofill enabled
3. Multiple session of same account allowed.
 - Log in using external user credentials.
 - Log in again using same user credentials on different browser.
4. No virtual full keyboard available. Can use keylogger to store user inputs. (From user side)
Which make site users more vulnerable to attacks.
5. No session Timeout.
6. No PKI implementation.
- 7.

Functional issues
